

Responding to Covid/Omicron and its Impact

We have conducted a thorough review into the operation of our camp in order to minimize the spread of Covid/Omicron and our business safety plan is in place. We are regularly monitoring official advice from government authorities and will take action as necessary. **Your safety is our priority but we all have to work together.** Below is a summary of changes that you need to be aware of that have been put in place. A full copy of our risk assessment is also available. We are looking forward to continuing to create new memories and the joy that making them brings.

Before you leave to come

1. Make sure everyone has a fitted sheet to go over their mattress. If they do not, we will provide one but you will be charged \$5 per fitted sheet used.
2. Everyone needs to have a mask for inside when not playing sport or eating.
3. Check that all people coming to camp have no Covid/Omicron symptoms and are not a close contact. **You are responsible to make sure the people you are bringing to camp are to the best of your knowledge Covid/Omicron safe. All groups should have a register of all their participants.**
Symptoms Include:
 - A temperature above 38°C within the last 24 hours
 - Cough, sore throat or body aches
 - Loss of Taste
4. Please ensure if possible that your camp is a closed camp. No day visitors.

Upon Arrival

1. School Groups, please do not arrive prior to 11 am so we have time to complete a deeper clean between groups. This time may be delayed depending on ability to get cleaning staff. Groups from Hobart could stop at the Bushland Gardens near Hobart for morning tea before you arrive.
2. All people to the camp must sanitise their hands upon entering the building and wear their masks (if applicable).
3. All Group leaders need to check in using the Check in Tas App.

During Camp

1. Ensure safe hygiene practices occur. These include
 - cover your coughs and sneezes with your elbow or a tissue
 - put used tissues straight into the bin – Catch It, Bin It, Kill It
 - wash your hands often with soap and water, including before and after eating and after going to the toilet
 - use alcohol-based hand sanitisers or suitable equivalent
 - avoid touching your eyes, nose and mouth
 - increase the amount of fresh air available by opening windows
2. Communal amenities – Please ensure cabins use the cubicles that have been assigned to them. The amenities will continue to be cleaned daily however we encourage self-cleaning between uses. Disinfectant spray bottles are available in each cubicle.
3. Observe social distancing as appropriate and density numbers.
4. Everyone must sanitise their hands every time they enter the building and before they begin an activity. Equipment is not allowed to be shared or if it is, it must be sanitised between uses.
5. Tables and Chairs must be cleaned and sanitised after meals along with regularly touched surfaces.
6. If anyone becomes sick or shows any flu like symptoms during the camp, they must be Isolated at camp and sent home.

End of Camp

School groups must be out of the building by 9 am. You can still remain on site and use the BBQ shed and portable toilets located near the BBQ shed until you leave. Bags will need to be placed outside the building. If the weather is not suitable, they can be placed along the windows inside at the front of the building. You will not have access to the main building after this time as it has to be cleaned and disinfected prior to the next group arriving.

After Camp

Please let us know if anyone in your group became sick during the next two weeks with Covid/Omicron.
